SUMMARY

Aspiring Software Developer with hands-on experience in Java, Javascript , SQL, and web technologies. Passionate about building scalable applications and solving real-world problems. Seeking an opportunity to leverage my technical expertise and problem-solving skills in a dynamic, growth-oriented environment.

EDUCATION

Silicon Institute of Technology, Sambalpur, Odisha
B.Tech in Computer Science Engineering (2024)
CGPA : 7.75

TECHNICAL SKILLS

| | |
|-------------------|---|
| Programming: | Java, SQL, JavaScript |
| Web Technologies: | HTML, CSS, React |
| Frameworks: | Bootstrap, Tailwind CSS |
| Databases: | MySQL |
| Tools and IDEs: | Git, VS Code, Eclipse, IntelliJ IDEA |
| Soft Skills: | Collaboration, Creativity, Communication, Problem-Solving, Adaptability |

PROJECTS

To-Do List Application.

I developed a dynamic To-Do List application using React to manage tasks efficiently. Implemented features such as adding, editing, deleting, and marking tasks as complete, ensuring a seamless user experience. Utilized React state management for real-time updates and enhanced performance. Styled the application with CSS for a clean and responsive UI.

Tic Tac Toe.

I developed a Tic-Tac-Toe game in Java to enhance object-oriented programming skills. Implemented game logic using classes and methods, ensuring clean and maintainable code. Designed an interactive console-based user interface for a seamless gaming experience. Using Java's built-in data structures for efficient handling of game state and player moves.

Amazon clone.

This is a front-end clone of the Amazon website, built using HTML and CSS. The project replicates the design and layout of the Amazon homepage, focusing on responsiveness, user-friendly navigation, and engaging UI.
